The shorter routes are approximately 5 or 11 miles; longer routes are 16 and 20 miles.

These are declared distances for ride- but check notice board in case of any late changes to route

Terrain-

Generally the terrain is fairly flat to gently rolling. There are some steep climbs on narrow tracks – watch out for mud !. It looks a bit complicated on the map but it will be easy to follow

Roads-

There are Three road crossings on the route out and back, which will be stewarded.

Marking-

The route will be marked with coloured spray on the ground and coloured plastic tape ties. See map and notices on day to check for changes.

Remembering that all the stewards etc are volunteers who are giving up their time to make the ride safer. Please be courteous to other users of the tracks-. Please ask before overtaking with care, particularly look out for horse with tail ribbons (see notice board) . We have a good reputation and need to keep it, to continue to be allowed to use these areas some of which is on private land
